

The Onesto “The Search” was launched in 2015. This was a partner project with Distell. This event became a household brand and annual event with pubs and venues across Gauteng. It became such a huge event, that we had competitors on national level keeping an eye on things and how we go about conducting our business.

Pubs and Venues and especially patrons have become so excited about the annual “The Search”, that this event will be treasured by people for many years to come.
